# President Report

Written by Rick Smith

Obviously the big story of the month is the impact of the Coronavirus - now known as COVID-19. I have been purposely delaying the writing of this report as the situation changes almost by the hour. The City has now declared a City wide state of emergency which will close all recreation facilities, libraries, personal service businesses, playgrounds, and a number of other facilities. A number of other City attractions like the Zoo, Heritage Park, and others are also now closed to the public until further notice. Schools are now closed and churches and funeral events are very restricted. When one looks at the decisions being made by our Federal Government, the various Provincial Governments, the local Municipal Governments, and the Governments of other countries throughout the world, this is obviously something that cannot be taken lightly, and we must all do our part to act responsibly. There was an interesting quote on social media - it said **“The virus doesn’t move, people move it. If people stop moving, the virus stops moving, the virus dies. It is that simple.”** Perhaps this helps to justify the inconvenience of staying at home.

As for the impact to MOCA, obviously we immediately ceased the operations at Jack Setters Arena. Because most minor hockey programs were finished anyway, it was primarily adult hockey that remained and they completely understood. The ice has been removed and the building closed for the summer and the staff remaining will conduct their usual summer maintenance. The operations of the Community Hall have also been closed and all renters completely understand the situation, and many had cancelled their events anyway. Our usual summer programs in the arena are now on hold. The Community Resource Centre has also felt some impact, as they are now required to be closed to the public, but they will continue to provide telephone support to clients..

Because community association facilities have been forced by the authorities to close, all MOCA monthly general meetings have been cancelled until further notice. We at MOCA had planned to cancel general meetings anyway as being the responsible thing to do, but with the shutdown of all community facilities, that solidified the decision. We will continue to keep residents informed through the newsletter which is now only available by e-mail or online, or by the website or social media, but if anyone has any questions about specific community issues, we invite you to contact our MOCA administration office, or, contact myself at the e-mail address shown below.

The MOCA Board will continue to hold their regular monthly Director’s Meeting where they will continue to conduct the business of the Association, but these meetings will not be held in our Board Room for the foreseeable future. We conducted our first teleconference meeting which was interesting but we did get through it. I am sure there will be several more teleconference meetings in our future. A hidden benefit is that I am getting better with technology !!

Continue on next page...

**PRESIDENT'S REPORT- CONTINUED FROM PAGE 2**

And so, as we all get used to the new normal, for at least the short term future, we must find new ways to put in our time. I saw an interesting post on Facebook suggesting that this might be a good time to teach kids the things that they might not learn in school, like how to cook, how to check the oil in the car, how to do laundry, how to clean the house, money management, etc. I know that I have projects that I been putting on hold, like cleaning out the garage and the basement storage area. I don't mean to be a pessimist but I believe things are going to get worse before they get better. Because of the way the world is reacting, life as we have known it is not going to return anytime soon.

On a completely unrelated matter, MOCA has been working with the City Bylaw Enforcement to deal with derelict vehicles that are found throughout the community. To be clear, this is not intended toward those of you who may be restoring a vehicle which is a work in progress, although we would suggest that these projects not be in a front yard or visible. It is intended for those vehicles that appear not to be drive-able, with parts missing, and which have sat stationary for long periods with no attention paid to them. This is essentially the definition of a derelict or dilapidated vehicle and they become unsightly in the neighbourhood. If you are contacted by Bylaw Enforcement, it is because there has been a complaint and you really need to deal with the issue. Please, either dispose of the vehicle or move it to another area in your yard where it is less visible and easier to work on. Your cooperation in this regard is appreciated as we strive to improve community pride and appearance.

Unfortunately there really isn't much more to write about. I have not heard of any progress on any of the City projects that are planned for our area but I am reasonably certain that the City staff have more important things to concern themselves with right now in all departments.

As always, if you have questions or concerns that you would like to direct to me, please either call into the MOCA office, or send me an e-mail at [president@millicanogdencommunity.com](mailto:president@millicanogdencommunity.com).

**Stay home, stay safe and stay healthy!**

Rick Smith, MOCA President

# Derelict Vehicles

**A MESSAGE FROM MOCA CIVIC AFFAIRS COMMITTEE**

If you have been issued a notice for a dilapidated vehicle located on your property and it is in full public view then it must be repaired or removed from the property entirely. There are also some additional solutions, if you are working on the vehicle and removing it is not an option then it can be placed in the garage if you have one or placed in a temporary Portable/Instant Garage Structure, tarping of the vehicle is not permitted. Send an email to: [rentals@millicanogdencommunity.com](mailto:rentals@millicanogdencommunity.com)  
**\*\*Note in your email - Attention MOCA Civic Affairs committee\*\***

**Derelict/inoperable/ dilapidated vehicles come under section 8 (3) (d) of the City of Calgary Community Standards Bylaw below.**

A "dilapidated vehicle" means a vehicle that is:

- (a) incapable of being safely operated;
- (b) partially or fully dismantled; or
- (c) substantially damaged

**Accumulation of Materials**

8. (3) No owner or occupier of a Premises shall allow the following to accumulate on the Premises such that the accumulation is visible to a Person viewing from outside the property:

(d) Automobile Parts; "Automobile Parts" includes, but is not limited to, any vehicle part or collection of vehicle parts, or one or more vehicles that are dilapidated, derelict or not in operable condition;

**Alberta Health Services**  
Emergency Medical Services

**Bicycle Helmet Safety**

Head injuries are the leading cause of serious injury and death to kids on wheels\*. Most injuries occur when a cyclist suffers a fall, strikes a stationary object, or collides with another cyclist/pedestrian. Remember – it's the law in Alberta that cyclists under the age of 18 must wear a helmet (and highly recommended for all ages). Helmets should be CSA approved and worn during recreational activities such as skateboarding, in-line skating, and cycling.

**Getting informed**

- Wearing a helmet while cycling can prevent a serious injury, or even save a life;
- Brain injuries can cause permanent disability or death;
- Reduce your risk by always wearing your helmet;
- Replace any helmet that has been involved in a crash, even if it appears undamaged.

**Getting the right fit**

- Take the time to properly fit and adjust your helmet to ensure maximum protection in case of a crash;
- When worn properly, helmets should fit level, not tilted up, or down over the forehead;
- Helmets should feel snug, but not too tight. To test the fit, the helmet should not fall off when you shake your head from side-to-side while the straps are unfastened;
- Adjust the chin straps to form a "Y" below and slightly forward from the ears;
- Only one finger should be able to fit under the chin strap when it is fastened;
- Do not forget to use the sizing pads included with the helmet. They will help improve the overall fit, comfort and safety.

**Getting started**

- Allow children to assist when buying their helmet. Cyclists who choose their own helmet are more likely to wear them;
- Start the habit early. Young children learning to ride tricycles need to wear helmets;
- Parents must lead by example – always wear a helmet when cycling.

## Storm drains in your community

Storm drains (or catch basins) are a part of Calgary's storm-water system. There are about 60,000 storm drains in Calgary working to drain water and melting snow off sidewalks, streets and roads.

*Keep your storm drains free and clear of snow, leaves and debris*

If it's safe and possible to do, remove debris or snow blocking the drain. Create a channel if need be, to facilitate water flow.

*Pooled water on your street*

In communities built after 1990, The City installs devices in the storm drain to control how fast water flows into the system. During and after a rainfall event, these devices allow water to pool on the road (usually in a depression or low spot, called a Trap Low), until the storm-water system can accept the extra water.

*Take a picture*

If the storm drain remains submerged for more than 90 minutes or you cannot safely clear ice and snow away, take a photo and submit it via the 311 App or a web request. This way, our crews can prioritize and respond promptly.

For more information on storm drains and why they matter and to locate the closest one to you, visit [calgary.ca/stormdrains](http://calgary.ca/stormdrains).

## Don't leave pets out of your plans

April is a great month for dogs and cats alike. Warmer weather means longer walks for dogs and lazy days by the sunlit windows for cats. But that life of leisure and serenity can be turned upside-down in an emergency.

"Our pets are members of our family. When faced with an emergency or disaster, the last thing a pet owner wants to do is leave a pet behind," says Chief Tom Sampson of the Calgary Emergency Management Agency. "That's why we recommend having a plan for your pet as well as your family."

Here are some steps you can take to ensure the safety of your furry friends during an emergency or disaster:

- Make sure your pet is identifiable. If you become separated during an emergency, this will make it easier for you to find them.
- Prepare a pet emergency kit with a sturdy crate or carrier, a leash, 72-hours' worth of food and water and special medication if needed.
- Make a list of pet friendly hotels or relatives you can stay with as emergency shelters don't normally accept pets.
- Visit Animal Services to get a door or window sticker that informs emergency services that there is a pet in the home.

Taking these steps now, will save a lot of time and stress during an emergency or disaster. To learn more visit [calgary.ca/getready](http://calgary.ca/getready) or come and join us at Disaster Alley on May 4 at McMahon Stadium.

I was first elected in 2010 with the mandate to achieve the mission of Great Neighbourhoods I had offered to Ward 9 voters as a pathway to our Ward's and our City's best future. Based on the simple truth that Great Neighbourhoods make a great city, it is a five-point transformation I've been relentlessly pursuing through two and a half terms in office. The first of these points is that our City government should make the planning and delivery of Great Neighbourhoods one of its principal objectives (as opposed to just expecting/hoping that they'll happen as a side effect of business as usual).

I'm very pleased to report that March and April of 2020 are a huge turning point for delivering on our first objective! It's taken almost ten years of leadership, but the Guidebook for Great Communities will arrive at Council on April 27! There are several things that need to be understood about what the Guidebook truly is, the lynch-pin role it plays in the transformation of our planning system into a machine for Great Neighbourhoods, the tortured path it took to get here, and the nature of concerns regarding and opposition to this legitimately transformative work.

The 2011 Mission Road Main Street Council Innovation Fund Project constituted our first run at a Great Neighbourhoods community-involved, forward-looking, revamp of our planning system. While at the time our planning department was disinterested in changing their status quo, two outcomes resulted from this project that advanced the mission. First, Council was inspired to transform planning and went to market in search of a new General Manager of Planning to lead this project. The second came in the form of our General Manager of Transportation, Mac Logan, becoming inspired by the process, and as the South East Transit Way evolved into the GreenLine, he provided the leadership to transform it from just a transit project into a city-shaping continuation of the Mission Road model.

The GreenLine's focus on city-shaping, "station area" neighbourhoods through a transformative process led to a number of my Ward 9 communities - Inglewood, Ramsay, Millican-Ogden, and Tuxedo Park - becoming the piloting grounds for scaling citizen-focused, forward-looking planning exercises into a city-wide approach. Over a few years of struggle against the status quo, Station Area Plans, scaled upwards to Area Redevelopment Plans, and then to the Multi-Community Local Area Plans that are guided by the Guidebook for Great Communities. There's so much more to this story, but you'll have to visit our website to read it all.

Thank you to everyone who remains committed to the iterative project of building Great Communities. We're almost there!

**Meet your** new Indigenous Artists in Residence

Tina Guyani (meaning "Deer Road" in Tsuut'ina) is the artistic collaboration of Glenna Cardinal and Seth Cardinal Dodginghorse. This mother and son duo were displaced from their home and ancestral land on Tsuut'ina Nation by the construction of the SW Calgary ring road in 2014. During their time at a Library, they'll be researching Calgary's historic pressure to sell the land and explore how construction affects communities. You can visit the pair in their Level 4 studio at Central Library on Wednesdays from 10:00 am to 2:00 pm, and even become part of their upcoming exhibit by sharing your stories with them. Learn more at [calgarylibrary.ca/artists](http://calgarylibrary.ca/artists).

**Need some** space?

Find it at the Library! Whether you're looking for a place to host a book club or condo board meeting, or you're organizing a study group or community gathering, the Library has you covered. You can use your free Library card to book meeting spaces in 20 different locations for free. Every room is different, and offers an array of amenities, from workstations, to audio-visual connections and displays. Looking to create the next great podcast, web series, or video blog? We have specialized creative studios available to book as well. Get started today at [calgarylibrary.ca/room-booking](http://calgarylibrary.ca/room-booking).

**It's Volunteer Week!**

April 19-25 is National Volunteer Week. In 2019, 3,910 Library volunteers gave over 100,000 hours of aid to Calgarians, helping more than 85,000 patrons learn new skills, find information, explore technology, and make stories come to life. We couldn't do what we do without the help of our volunteers, whose time and energy are valued at over \$3 million annually. If you want to make a difference in the lives of Calgarians, consider joining our team at [calgarylibrary.ca/volunteer](http://calgarylibrary.ca/volunteer).

**Be Part of It! Benefits of Volunteering**

A message from the Federation of Calgary Communities

Volunteering with your community association and contributing your unique skills and knowledge, alongside your volunteer team, helps your community thrive!

Your volunteer efforts are critical to making a difference in the quality of life in your community and helping to build a sense of belonging. Not only does your community benefit from your volunteer efforts, but you do too! Volunteering can:

Connect to New Friends & Community:

- Meet new people with shared interests
- Enhance your social skills in building relationships
- Strengthen community connections, broaden your support network, access neighbourhood resources and fun activities

Benefit your Mind & Body

- Reduce stress, improve self-confidence and increase happiness and sense of purpose
- Increase physical activity to support a healthy body and mind

Help Advance your Career

- Build upon skills and develop new ones
- Gain valuable career experience

Have Fun!

- Explore your interests, make time for hobbies, renew creativity and fulfill personal goals
- Enjoy social time with new friends

Make a Difference

- Give back to your community
- Have a positive impact in people's lives!

- **Facilities:** MOCA supports a terrific community hall for meetings and events as well as the Jack Setters Arena
- **Planning and Development:** Your community association influences transportation, roads, parks, playground development, and traffic issues. The City of Calgary and MOCA confer on these issues
- **Quality of life:** Individuals of MOCA take pride in their community and strive to improve the quality of life for themselves and their neighbors
- **Regional Committees & Initiatives:** MOCA Volunteer Board representatives speak for the community on regional issues such as the Area Redevelopment Plan and major infrastructure projects
- **Representation:** Your membership supports Millican Ogden Community volunteers in activities that represent our best interests, ensuring the Millican Ogden Community remains a great place to live and play
- **Resources:** Through community memberships, grants, casinos and special events, MOCA raises funds to provide programs, services and maintain Community Facilities
- **South East Calgary Community Resource Centre:** Direct Assistance, Youth and Social Programs, Clothing Room, Job Search, Computer Use and Volunteer Opportunities
